Protons, for the building up of weight and lost nerve force. It acted more like a solvent than a stimulant.

Miss Ona Stewart, Ohio

After a Winter Without It Without Protone I was a Weak and Thin Person. I have now a Good Flesh-Builder For a Good Cause.

"I had been thin for years, and began to think it was natural for me to be that way. Finally I read about the remarkable processes brought about by the use of Protone, so I decided to try it myself. Well, when I look at myself in the mirror now, I think it is some body else. I have cut on just 25 pounds during the last month and never felt stronger or more 'nervy' in my life."

"Protone is a powerful inducer of nutrition, increases blood growth, makes perfect the assimilation of food, in-

Do You Approve of Lodgeism? Does the High Cost of Living Interest You? How About Your Own Responsibility on Election Day?

Every Man Voting for a Member of the Legislature Who Is in Favor of Lodge Does So at the Expense of His Family—A VOTE FOR LODGE IS A VOTE AGAINST LODGEISM.

Plenty of evidence of the panic-stricken condition of the Republican party in Massachusetts is found in the speeches of candidates and leaders.

This is simply a campaign for the election of State officials, they are trying to make the voters believe. They are insisting that the only matters that should be debated are those that were considered by the last session of the Legislature.

They would have the public believe that the tariff question and the high cost of living are not related and that the Republican party is in no way responsible for the high prices which people are compelled to pay for the things they eat and the things they wear.

But the voters are not going to be fooled by such arguments. They know that it is more than a State campaign that is being waged by the Democrats under the leadership of Foss and Cassidy; and they cannot be made to believe that they have no interest in conditions which make it impossible for them to do more than barely make both ends meet.

The people to-day are interested in bread and butter topics. The question of clothing for themselves and for their families is of the deepest concern to them. They want a change for the better. They are not hopeful of securing such a change from the Republican party; they are determined to try the Democratic party and see if, through Democratic efforts, better living conditions cannot be brought about.

The election of Foss and Cassidy would have a great effect upon Congress. The overturning of the solid Republican State of Massachusetts by the election of the Democratic candidates for Governor and Lieutenant-Governor, after a campaign waged on the theory that the tariff is responsible for the high cost of living, would give a tremendous impetus to the battle that is being waged all over the country for a revision of the tariff downward and for a reduction of the duties on food and clothing and building material.

Members of Congress are to be elected at this State election and no candidate for Congress who is an apologist for or defender of the Payne-Aldrich tariff bill, or who voted to keep Cannon in the Speaker's chair, should be elected.

The next Legislature is to choose a United States Senator for six years. No candidate for the Legislature who is in favor of the re-election of Henry Cabot Lodge to the United States Senate should be elected.

Lodge is one of the most obstinate of the stand-pat members of Congress. If he should be re-elected he would oppose a revision of the tariff in the interests of the people.

Every man who votes for a candidate for the Legislature who is in favor of Lodge does so at the expense of his family. Lodge in Congress would continue to favor an unjust tariff law and the high cost of living.

So that, the man who votes for Lodge registers himself in favor of depriving his family of comforts and necessities and stupidly follows partisan impulse that the "scholar in politics" may continue to misrepresent the sentiment of this Commonwealth.

Lodge has never been in sympathy with the desires of the people of Massachusetts. He has never been anything more than a cold-blooded politician. He has never gone among the people and learned their wants and needs.

He is and always has been in politics to win success for the Republican party machine, which derives its sustenance from the Special Interests and the Special Privilege Grabbing Class of the State and pays its debts to those interests and that class by giving them the legislation they demand.

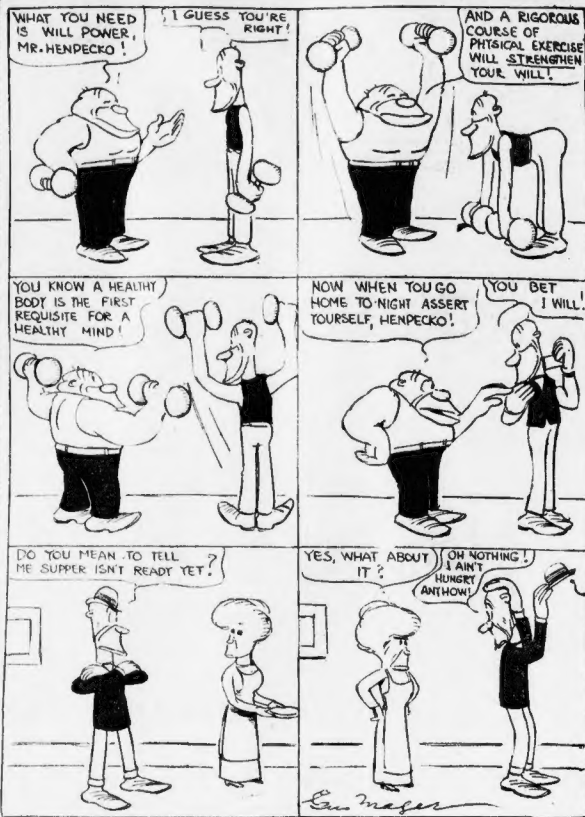

When such men as Lodge are driven out of the halls of legislation the prices of necessities of life will begin to drop. When men of warmer natures, whose hearts beat more in time with the small business man, the farmer and the toiler, are elected in the place of such men as Lodge, we will hear less about the high cost of living—for when such men are in the majority in Congress the tariff law which now exists for the benefit of the trusts will be succeeded by one for the benefit of the people.

This line of argument is plain enough and ought to be easily understood.

It ought to convince every man that the tariff is responsible for the high cost of living and that the great overshadowing question to be considered by every voter is the one which directly affects his home. There are State issues to be considered, of course, but they are secondary at this time. And all of us may well say to ourselves that, if Foss and Cassidy are right on the big issue that is before us, they may safely be trusted to be right in their management of State affairs.
